Hi Kate

Yes please to ordering of one Part R140PO2 MAX 550E oxygen sensor with a standard flow diverter. We also want to order 2 of the R-17 MED oxygen sensors 0110017. We also want to order a new analyser (same as per our most recent order – you should have details on your system).

We do not need the one with the special flow diverter.

Please email me an invoice so that I can sort payment over the phone. I work Wed – Fri inclusive so if I receive your invoice by Wed 5/10, we can sort out payment too.

Thanks.

Jackie

Subject: Re: FW: Order query - update

Good afternoon Jackie,

Thank you for your order.

Please could I check you require part number **0110452 - (R140P02)** is a Max-550E for use with MaxO2 ME oxygen monitors. It is supplied complete with a standard 15mm I.D. flow diverter (0120095).

We also have part number 0110454 - (R140P02-001) is a Max-550E for use with MaxBlend devices (MaxBlend 2, MaxBlend Lite and Blender Buddy 2). It is supplied complete with a special flow diverter which is narrower in diameter and has a small bleed hole (0120086).

We are happy to take a card payment. Upon receipt of your proforma invoice, you would just need to reply to the email to say that you are happy with it. I would then change it to a confirmed order and ask my colleague Cathy Green to ring you on 01483459120. She would probably not telephone you today.

I await your reply.

Many thanks.

Kind regards

Kate Griffiths

Viamed is now enacting hybrid working to allow sales and admin staff to work remotely and in the office. Telephone calls to the main office will be answered, but please continue to use email where possible.

I have found out that we need the standard R140PO2 MAX 550 E oxygen sensor – 1 of these please.

And 2 of the R-17 MED oxygen sensors.

I can pay by debit card over the phone if that helps?

Thanks.

Jackie

Please can someone ring me about ordering part R140PO2. Max 55OE oxygen sensor.

Also, do you still stock R-17 med oxygen sensors part number 0110017?

Thanks.

Jackie
