Hi Graham

We have all the components parts available, so we would just need 3-4 days for assembly.

Best regards

Ryan

Hope you are well.

We have another order for 8 off Oxygen Analyser kits - good news. What is your current lead time for the 7910253 Oxygen Analyser for Weld Gas – Sarco Stopper?

I am still trying to finalise our tubing connection into the flow diverter, so may need some Tees and tapered barbed connections, depending on lead time and when our customer needs these kits. If you can tell me the lead time for the Oxygen Analysers, I'll be able to confirm if I need Tees and tapered connections as well and will ask for a formal quote.

Thanks

Graham
