To: "ryan.swaine@vandagraph.co.uk" <ryan.swaine@vandagraph.co.uk>

Good Morning Ryan

Hope you are fine. Thank you very much for your mail.

We appreciate the new price- can you please make a new production about 50 pieces for us – and another order about 50 pieces end of December?

Can you please send me the order confirmation with an expected shipping date – week will be enough?

Thank you very much and I am waiting for the 20 cells – please send the shipping number when available.

Mit freundlichen Grüßen / With kind Regards

Andrea Krieger

Betreff: Re: order about D40

Hi Andrea

I am sorry for the delay.

The component sensors are being tested and will be ready for production tomorrow. I am hoping that we can have them ready next week.

With regards to the pricing, we are raising the trade price of the D-40 to £40 and we can continue to give you a further 15% discount, which brings your price to GBP £34.

The D-09 will be raised to £38, but with your discount will be GBP £32.30

Best regards

Ryan

Hi Andrea,

We are now expecting the sensor components to arrive next week, if everything goes to plan. We need at least another 7-10 days to assemble them.

Best regards

Ryan

Hello Ryan

I am sold out by this sensor, and still waiting for any information about the last order for 20 pieces.

Can you tell me anything about the new prices for us? So I have to make a new order- but need this information first- of course.

Mit freundlichen Grüßen / With kind Regards

Hi Andrea

I hope you had a nice weekend.

We have tested your sensor and we have not been able to find any fault.

We initially installed the sensor in to an O2Ell and it worked fine. We then tested the mV output of the sensor in both air and O2 to check the linearity, the sensor performed perfectly:

27,4mV in air and 129.9mV in O2

Are you happy for me to post the sensor back to you?

Best regards

Ryan

Dear Ryan

Hope you are fine- i have a reclamation about one D40 cell SN 782463- shall I send the cell to your office for checkback what is the fault?

The customer told me that the cell worked fine for a few days and the the readout simply vaies between 0,1 and 0,4. What do you think?

Kind Regards

Andrea

Betreff: Re: order about D40

Hi Andrea

Thank you for your email.

Our version of your D09 is the R-33S1 and we would be happy to offer you same pricing and discount as we offer you for the D-40:

R-33S1 - labelled as the NRC D-09 = (GBP) £35.00 -15% discount

I assume that you would want us to label the sensor for you as the NRC D-09?

With regards to stock, we are also awaiting these from the USA and we are expecting to receive them at the same time as the D-40 component sensors.

I will need a little bit of prior notice if you want to go ahead, so that I can set up the artwork for the label.

I look forward to your response and please let me know if you have any questions.

Best regards

Ryan

Betreff: Re: order about D40

Hi Andrea

I am very sorry, there has been some delays on the manufacture of the component sensor in the USA and the latest information is that we will receive them during the 3rd week in July and then we have to put them in to production.

We will continue to chase them in the hope that we can bring the delivery date forward.

Best regards

Ryan

Hello Ryan

My last information is that we cannot get the new delivery before end of July. I think this is such too long to wait.

Can you please check if there is anything possible to get the delivery earlier?

Kind Regards
