Hi Mick

The sensors is the OOM111 = GBP £63

Universal mounting clamp for the Mysign = £100

Best regards

Ryan

Hi Ryan,

Mysign look ok.. which cell do they use..?

Also what's the cost of those Envitec clamps shown in the leaflet.

Many Thanks,

**Mick James**

Hi Mick

Thank you for your email.

Unfortunately Teledyne has recently ceased manufacture of the MD300 analysers and I am unable to get anymore. We can offer a couple of alternative devices that also have the high and low adjustable alarms:

MAXO2 ME - This model is the most similar to the MX300, as it runs on AA batteries = £509.60 each EXW

Mysign O Kit (includes mains power supply and rechargeable battery) - This device has a rechargeable battery, but it will require charging every couple of days. Alternatively it can be plugged into the mains power = GBP £350.00 each EXW

I have attached some information for each of the analysers listed above.

Please let me know if you have any questions or if you would like to proceed with an order.

Best regards

Ryan
