Dear Steve,

Thank you for your reply.

I'd like to request a quote for 20 of each of the blenders as well as 10 of their respective clamps [part numbers 0121351 and 0121182].

Also is there any notable difference in performance in either of the two blenders that you are aware of? I'm just trying to gather some facts about the two machines before a final decision is made on which monitor we purchase.

Thank you for your assistance thus far.

Regards,

Chekwube Okereke

Subject: [External Email] MySign O and MaxO2 ME

Dear Chekwube,

Thank you for your enquiry, I apologise for not being able to respond sooner.

You are correct regarding the clamp for the MaxO2 ME; this is a V-mount pole clamp that the MaxO2 ME sits directly onto, using a dovetail section on the integral kickstand on the back of the device.

- 0121182 - V-mount pole clamp - large @ £42.00+VAT

The clamp for the MySign O Oxygen Monitor allows the device to rotate from a vertical to horizontal position, with the MySign O automatically adjusting from a portrait to landscape orientation when rotated. It is available as follows:

- 0121351 - MySign O - Clamp £117.50+VAT

Both devices are supplied ready to use, complete with an oxygen sensor. Replacement sensors are available as follows:

- 0110452 Oxygen sensor MAX-550E (as used on MaxO2 ME)

1-off: £99.00+VAT
2-off: £94.05+VAT
3-10: £89.10+VAT
11+: £84.15+VAT

- 0110560 Oxygen sensor OOM111 (as used on MySign O)

1-off: £72.00+VAT
2-off: £68.40+VAT
3-10: £64.80+VAT
11+: £61.20+VAT

If you would like a quotation for a given number of units, please advise my colleagues in the sales office of how many you need and which accessories are required and a quotation will be forwarded on to you.

I have attached the price lists for these devices and accessories for reference. If you have any further technical queries, please feel free to contact me and I will respond upon my return to work on Monday, for everything else, the sales team will be able to assist you.

Best Regards,

Steve Hardaker

Hello,

Thank you for your replies.

I am just trying to get a complete picture on whether any of these two monitors would be a good fit for what we need, which would be the best fit for us and an idea of the initial capital cost.

For both monitors (MySignO Oxygen Monitor – 0111276 and MaxO2 ME - Part number 0111263) we'd need some sort of clamping solution. For the Max 02 ME monitor #0111263, there seems to be clamp part #0121182 that would be useful. There is a clamp pictured in the brochure sent for the MySignO part # 0111276, but I have not been able to find the part number for it. Would you please be able to provide that part number as well as a price for each clamp.

The pamphlets show part numbers 0110452 and OOM11 as oxygen sensor spare parts for the MaxO2 ME and MySignO Oxygen Monitor, respectively. Could we get the cost of both of these parts. Also, I'm not sure if it's a service you offer, but is it possible to get any type of hands on with either of the two monitors before we purchase them.

Thanks for your help.
