Hi, please can we send the client a proforma for
1x OOI103 Sensor for Oxiquant - 0110660 = GBP £72

GBP end user - will likely pay by credit card.

Thank you

Hi Ryan

I just need the sensor section (lower part) #ool103 for GPB 72.

Kind regards

Beat

Betreff: Re: Sensor for Oxyquant O2-Analyzer

Hi Beat

Thank you. Just to clarify, do you need the complete device or just the sensor section (lower part)?

Complete Unit - 0111275 = GBP £155

OOI103 Sensor for OxiQuant - 0110660 = GBP 72

I have priced them both in GBP, as this will be a direct transition if you wish to pay by VISA card.

The prices above do not include any UK VAT. Once I have your reply we will send you a proforma invoice with the delivery costs and then you can decide whether to send the payment by bank transfer or call us with your card details.

I look forward to your reply.

Best regards

Ryan

Good evening Ryan

Thanks for your reply. Delay is no problem, had enough to do with Christmas events...

OK I'd like to order ONE (1) lower part, containing the sensor for the price you indicated. I suppose that British VAT is deducted because it's export.

Let me know how I can pay (VISA? or via electronic bank transfer/SEPA?)

Do you send me a pro-forma invoice?

My full postal address is:

Dear Beat Müller

Thank you very much for your email and I apologise for the delay in our response.

In regards to the replacement sensor, you are correct.

We would be happy to supply you in Switzerland and we do not impose any minimum order requirements:

OxiQuant S - pn: 0111275 = GBP £155 / EUR €168.00 each EXW

We also have a sister company that supplies devices for scuba market that may be of interest to you:

www.vandagraph.com

Please let me know if you have any further questions or if you would like to proceed with an order.

Kind regards

Ryan

Dear Madam, dear Sir

We are interested in purchasing some sensors for the OxyQuant S O2 Analyzer from Envitec (s. attachment). As far as we can see from the data sheet, the sensor (part #0110660) is the complete lower part of the analyzer.

So, do you export to Switzerland and if yes, what is the price per pc and what is the minimum ordering volume?

Kind regards

Beat Müller
