

EASELOK

THE PLASTIC CASE COMPANY

CASE INSERTS – FREE DESIGN SERVICE

FOAM – Low cost tooling

Polyester: A lightweight and flexible material and the most popular type used in our cases. Available in charcoal grey or white.

Polyester Brushed Nylon: As above but covered in a brushed nylon material giving an attractive appearance. Available in black, blue, burgundy and red.

Plastazote: A semi-rigid foam which is more suited to heavy items. Available in black and blue.

VACUUM FORMING – Low cost tooling

Various types of materials are used dependent on the application. The most popular type being H.I.P.S. High Impact Polystyrene from 1.0mm to 3.0mm thickness.
