Hi Tracy

We would be looking at 100, but I would have to double check current orders.

We could also offer our R-22MEDV, which would be compatible. Although we are also short of stock, we can get a batch of 1000 in 4-8 weeks.

R-22MEDV - pn: 0110021 = USD \$37.75 each EXW

Best regards  
Ryan

Hi Tracy

Unfortunately not, they would have to be ordered. I can't say for sure what the delivery time would be, but I expect it will be around 8-12 weeks.

There is also an issue with the price; if we place the order today we can use the current price of USD \$32.50, but after the price is likely to increase to \$35+
