thank you very much for the  
feedback..

I will analyze the specification to  
understand if there is any  
difference..

Please send me the price with  
shipping included, and if you need  
any documentation please let me  
know so I can arrange it.

address for shipping quote:

Rua José Caxias de Lima, 29  
Santa Cruz - Rio de Janeiro/RJ  
Brazil  
CEP: 23520-313

We need to finish this urgent operation, so I'm waiting for you to finish it as soon as possible..

If you have any contact so we can talk please send me a message.

Further to my email below, please also find a leaflet attached with details of other Oxygen Sensors we supply.

If you would like further information on any of these, please let me know.

Kind regards

Sophie Lines

Please note: My working days are Monday, Tuesday and Friday

Hi,

I don't believe there is a difference between the 2 models, the sensors we supply look the same - please see another image below.

I can confirm our price breaks for the UFO 130-2 Oxygen Sensors (part number 0110081) are as follows:

1 unit - \$187.85  
2 units - \$169.07  
3-10 units - \$159.67  
11+ units - \$150.28

Prices do not include delivery. If you would like me to send you a Proforma Invoice including delivery costs to you in Brazil, please let me know your full delivery and invoice address.

If you have any questions please do not hesitate to contact me.

Kind regards

Sophie Lines

Hi,

Thanks for the prompt feedback.

We need 1 piece of this sensor, but the serial number being used in our customer's equipment is 268944 A9.

Is there a difference between the models?

Below is an image of the sensor being used in the equipment.

Let me know how the billing flow for Brazil works, do you already have representatives?

Please send me the portfolio of sensors you are currently working on.

Thanks a lot!

Good afternoon,

Thank you for your inquiry. I can confirm we do supply a compatible sensor:

**Part number 0110081 - Oxygen sensor UFO 130-2**

Please find a leaflet attached.

Please can you let me know how many of these sensors you would require?

Kind regards

Sophie Lines
