To: Duncan Clark <D.Clark@jfdglobal.com>

Hi Duncan

In the first instance I will send 700 x 8030460 Mesh Screens for magnetic signature analysis, to cover the current back orders. Once the current orders have been resolved I'll then send a further 1000 - 2000 screens as discussed to cover at least the next 12 months of orders.

Have you heat treated the remaining mesh screens and if so, have they been retested?

By the way, for future possible sensor designs there are a few possibilities in terms of non-mag connectors.

Regards

Steve

Hi Steve,

Hope your trip back home was uneventful.

Can you advise when the 1000/2000 mesh components for ranging will be dispatched ?

Best regards

We want to thank you for your continued support during this very challenging situation, COVID-19 health emergency.

Continued government restrictions and limited availability of transportation may continue to cause some delays in the supply chain and JFD would like to have this information supplied by our vendors proactively.

Please continue to provide regular updates to JFD team members you are in contact with.
