## Competency Assessment Questions – VersaStream Sampling Lines

Please refer to any system resources that you have access to in order to locate the information. The training materials will be made available on the system.

If you are unable to find the information, please make notes at the end of this document detailing where you struggled.

1) What is the name of the type of capnography that VersaStream sampling lines are used with?

Side stream capnography

- 2) What colour is used for the connectors on Viamed's Oridion compatible **long-term** sampling lines?
- 3) Prior to VersaStream Viamed used a multi-part sampling system using a separate filter called a Nomo adapter. Explain one disadvantage of this system.

More parts that needed to be stocked

4) Which of the 3 main ranges of VersaStream sampling lines that Viamed supplies is missing from this list?

Viamed / Masimo Luer Lock Male Octobro

5) How long can a short-term sampling line be used for?

Up to 24 hours

6) Can VersaStream sampling lines be cleaned and re-used?

No
