Kavia Mouldings Visit

Peter Worthington 03rd September 2002 at 01:00

Purpose of visit, to assess above as a supplier of moulded parts to Viamed.

First impressions, modern unit on a small industrial site, a bit untidy, but they assure me this is due to improvement work being done on the unit, of which there is evidence. Formed in 1984 by two experienced mould setters, Peter Worthington and Steve Naylor, who had previously been employed by Mitchel Plastics. Main customers include TWR (formally Lucas), Burco, Cannon, Potterton Myson.

Current plant 15 moulding machines ranging from 30-300 tonne, most quite modern. Small toolroom for the manufacture and maintenance of the tooling, pad printing, screen printing and hot foiling processes are available to finished goods. Quality certification to ISO 9002. 1st off and patrol inspection is carried out by full time quality personnel headed by the quality manager Mr Gerard Moore.

Kavia Mouldings are a well established company with a good reputation in the industry, I am quite happy to recommend them as a supplier to Viamed Ltd.

Yours faithfully

B. Walsh
