Hi Nicoleta

I have amended the Origin Declaration to include the information you requested.

Your box of 4420873 was dispatched on Thursday, UPS tracking: 1Z9W96380441257546

We did not have any samples of 4420874, but I have included a sample of the line and airway adapter (without connector)

In regards to the labelling, I only have the document I sent to you. Maybe you could take pictures of the box when it arrives or I can take some pictures on Wednesday for you, when I am next in the office?

Hi Nicoleta

I have attached the label designs.

The airway adapters are a standard size and are designed specifically to fit onto ET tubes, are you sure you need this on a separate declaration?

I have not requested any 4420874 be manufactured, as this would normally take at least a few weeks and we did not have the time to do this before the end of your tender submission.

Hi Nicoleta

Both types have the 15f/15m connection.

4420873 is for adult/paediatric use and 4420876 has a low volume airway adapter for infant use.

4420873

4420874

4420873 (A22-L-LLM-200) - We do not have any single samples attached, but we do have a few boxes in stock

= EUR €135 / box of 25 EXW

4420874 (A4.0-L-LLM-200) - WE do not currently have any stock of these, I would need to look into whether we can get a small number or a single box, as the MOQ is 5 boxes.

= EUR €165 / box of 25 EXW

Please find the certificates and DOC attached. I will have to come back to you with the rest of the documentation, but before we do, please can you let me know if the pricing is going to be acceptable and if you are still planning to proceed?

Dear Nicoleta

Thank you very much for your email.

The only item we could possibly supply is (7) Sidestream sampling lines. The issue is we do not offer a like for like product. Our Versastream lines have a built in filter, so the user does not need to empty, replace or clean the water trap. This would save the user money over time and is better for infection control, but the price of the individual lines are likely to be higher in price, so it may be difficult to get the benefits across to the user in a tender situation.

If you have access to the end users and you can explain the difference between a standard line and the Versastream lines, then you may be able to sell the advantages to them.

I have attached some information for your perusal, I look forward to your feedback.
