Reference: Althea UK & Ireland and Medipass Healthcare will combine

Dear Sir or Madam,

We are combining Althea UK & Ireland with Medipass Healthcare to form a new uniquely strong and experienced business in the UK. The new business will be the market leader in Managed Equipment Services for endoscopy, radiology, and radiotherapy, as well as being the No. 1 provider of independent medical equipment maintenance services in both imaging and biomed.

We are excited to announce that the new unified group will have a new name and branding, reflecting our patient centric mindset. Our new name has roots derived from the idea of “working for health”. This describes our ambition to help bring better healthcare and innovations to patients and encapsulates our common purpose: to enable the potential of healthcare.

Our business will be part of a European wide group providing medical technology, imaging, radiotherapy, and equipment services. As previously announced, we are now backed by DWS Infrastructure, one of the world's leading asset managers and infrastructure funds, investing to grow purpose-led businesses for the long-term.

The merger will enable Althea UK and Ireland and Medipass Healthcare to share resources and knowledge efficiently, as well as offer a broader range of solutions to existing and future customers.

We are proud of our track record of delivery, providing services to both the NHS and private sector for more than 20 years. Our commitment to quality services remains unchanged. Our service delivery and all customer support will remain the same, including telephone numbers, staffing and workshop locations.
