Dear Lisa

We usually have 6 weeks delivery schedule. However, unfortunately we are experiencing production delays due to the impact of a recent COVID outbreak. We are trying to recover the situation and the following is the worst case scenario. Of course we endeavour to ship the sensors earlier.

CST142556 150 x 8010018 oxygen sensors **Shipment date 12th June**

Regards

Steve

Good morning,

Thank you for your order.

Our standard shipping service is via UPS' standard CPT (Carriage Paid To) delivery Incoterms 2020. This means that orders over the shipment value of £60 are not covered by insurance for loss or damage once it leaves our premises.

Would you like to upgrade your deliveries to CIP (Carriage and Insurance Paid) by adding an additional insurance premium at 1% of the total goods value, meaning that any loss or damage during transit would be covered? For this order, the insurance cost would be £44.03.

If you have your own insurance or do not wish to add the insurance premium, please let me know.

Kind regards,

Sophie Lines
