Hi Ryan,

My last reply may not have reached you. The analyzer can turn on. It just display a 0.0 reading. The sensor works fine on other unit.

On another note, I will need to order

1. VN202 MK II Manual switch 5 units
2. R-17VAN Oxygen Sensor (0110217) 3 units
3. R-22VAN Oxygen Sensor (0110232) (is this the same as PSR 11-39-MHD)

Thanks.

Best regards,

**Leslie**

Subject: Re: Analyzer

Hi Leslie

Please can you tell me what the problem is with the analyser? Does it turn on? Does it not display any O2 %?

Best regards

Ryan

Hi Ryan,

I am about to order some analyzer and sensor.

I have an analyzer that is not working. I have tried changing sensors. How do we do this?

Best regards,

Leslie
