Dear Debbie,

Thank you for your email and please accept my apologies for the delay in our reply. I have been trying to work out a freight cost via our courier UPS, but I have been unable to get any results on the UPS website using your address details, as it does not seem to recognise the post code - I will need to contact our local office for some help with this.

In the meantime, I can confirm the price for 1x R-26MED Oxygen Sensor would be **€96.90 EXW**. The weights and dimensions for you to check with your own freight forwarders is approx 23 x 15 x 12 cm, and 0.3 kg.

If you would like to place an order, please let me know and I would be happy to send you a Proforma Invoice.

Kind regards

Sophie Lines
