Derek, 11:30

Send the order we will cover the insurance for the current order(s) , SN is meeting maxtec people in sheffield next week, he's said he will try to arrange going in to speak to prosol, - I've just had him on the phone, but for now until then just get any orders shipped

Please could you update, CVM142087 and 142751. Now needs to be CIP and a memo in red to say DL agreed that Viamed will cover insurance so this order needs to be insured. (No separate line for insurance) thank you x
