Hi Cathy, Emstec want 8 sensors shipping with their repair (separate proforma). W/d for the repair is 32 X 24 X 12CM 0.80KG. Please could you let me know what w/d for 4 x 0110018 and 4 x 0110040 would be, taking into a/c being shipped with repair? Thank you 😊 the difference would be \$25.52 that they would need to pay as extra
