

1. Product		TECCare™ Ultra RFU– Ultra High Level Disinfectant / Cold sterilant	
Manufacturer		Talley Environmental Care Ltd, Premier Way, Romsey, Hants SO51 9DQ, UK	
Emergency Contact		Tel +44 (0) 1794 503500 Fax: +44 (0) 1794 503555 email: nmanser@teccare.com	
2. Health Hazard		3. Composition	
No significant hazard		Peracids 0.25%	
4. First Aid		5. Fire Fighting	
Skin contact: There may be mild irritation at the site of contact, wash immediately with plenty of soap and water		Suitable extinguishing agents: Water spray jet, extinguishing powder, CO2, foam.	
Eye contact: There may be irritation and redness, bathe the eye with running water for 15 minutes		Unsuitable extinguishing agents: None	
Ingestion: There may be irritation of the throat, wash out mouth with water		Protective equipment: Wear self-contained breathing apparatus	
Inhalation: No symptoms		Additional information: Cool endangered containers with water spray jet	
6. Accidental Release		7. Handling / Storage	
Personal safety: Wear protective equipment		Information for safe handling: No specific instructions	
Environmental protection: Do not allow product to enter waters without treatment. Inform authorities in case of contamination of water or sewage system		Store only in the original container	
Cleaning/collecting: Collect in suitable container. Cover with absorbent, mix and collect mechanically		Protect from heat and direct sunlight	
Dispose of contaminated material as waste (See item 13.)		Store container in a well ventilated position	
Suitable binder: multi-purpose absorbent		Keep container tightly closed	
8. Exposure Controls / Personal protection		9. Physical / Chemical Properties	
No hazardous ingredients		Description: Liquid, colourless, sweet odour	
Respiratory protection not require		Flash point: >70°C	
		Danger of explosion: Product is not explosive	
		Viscosity at 20°C Non Viscous	
		Solubility: Fully miscible	
		pH-value at 20°C: < 4.25	
10. Stability / Reactivity		11. Toxicology	
Conditions to be avoided: Heat		IVN MUS LD50 17860 mg/kg	
Minimum shelf life: 12 months shelf life from production date.		ORL MUS LD50 210 mg/kg	
Materials to be avoided: Strong Acids, Oxidizing agents		ORL RAT LD50 1540 mg/kg	
Dangerous products of decomposition: No dangerous decomposition products if stored and handled appropriately (see item 7)			
12. Ecology		13. Disposal	
Components are readily biodegradable		Product must be disposed of according to local regulations pertaining to the disposal of hazardous waste.	
Accumulation in organisms is not expected		Empty and clean contaminated packaging thoroughly before recycling	
Does not contain substances influencing AOX of waste water.		Clean with water and if necessary with cleaning agent	
Does not contain any heavy metals			
Sewages containing product may not be released into the aquatic environment without preliminary treatment (biological purification plant)			
14. Transportation			
Land transport		Air transport ICAO-TI and IATA-DGR:	
ADRIRID (cross -border/domestic):		IMDG/GGVSea:	
Not classified		Not classified	
15. Regulatory		16. Other Information	
No significant hazard		Legal disclaimer: The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. This company shall not be held liable for any damage resulting from handling or from contact with the above product.	
National regulations may apply in event of accident
