Morning Steve.

Thanks for asking.

400 for August should be fine and then 600 for September would do I believe.

Kind regards

Hi Jan

At the moment there has been an increased demand for sensors and this is currently affecting delivery lead times.

Do you know what your sensor requirements are for August, September...? To be safe and ensure continuity, I have taken the liberty of processing a production job order for 400 sensors in August.
