Dear Martin

Thank you very much for your email.

Please find our latest trade and retail pricing attached. The sensor you require for the NTS is the R-17VAN.

Please let me know if you have any questions.

Best regards

Ryan

Good Afternoon

It's that time of year again, Spring is finally move  
and the diving activity is picking up every week.

Can you please send me an updated retail price list without vat.

And the dealer price list without vat.

If you can manage a better discount it would be much appreciated.

I looked at your O2 list and didn't find "NTS analyzer " Nitrox blender.

Do you have the cell for that.

Have a nice day
