Dear Ryan,

Thank you very much for your time and replying with valuable information. According to proforma invoice, please be kind and change it to Envitec OOM202 and OOM105 sensors because they are registered by that name in Bosnia and Herzegovina.

As I already have mentioned, our registration settlement is expiring on November and we need to submit to the official Agency for Medicinal Products and Medical Devices new updated documents that will be addressed on Honeywell not Envitec.

In that matter, I would like to ask you if it's possible to send me the documentation I listed below.

Please be kind and send to me on e-mail documents:

- Statement in which Envitec declares that the company has changed name. (It needs to be sign and stamped.)
- New ISO 13485 Certificate. (It needs to be entitled on Honeywell, not Envitec).
- Updated packaging labels.
- User manual.

Documentation listed below should be ORIGINAL and sent to our company address:

- Letter of Authorization (Template is in the attachment. It needs to be signed and stamped.)
- EC certificate, (Original or notarized in country of manufacturer)
- Declaration of Conformity (Original)

In case of any kind of additional questions, please don't hesitate to contact me.

Address for documentation delivery is below my name.

-

Looking forward for you answer,

Kind Regards,

Irma Fejzić
