

VIAMED Ltd

Company Personnel Manual

Section 38. Security

Viamed, Vandagraph, VST and Viamed Properties take security very seriously. With regards to the property, stock and to the staff.

Property security – We have a regularly serviced fire alarm and monitored intruder alarm, in both buildings.

Regularly monitored and serviced fire extinguisher, emergency lights and manual call points. We have rolling tasks and audits to maintain and monitor the building and grounds. A system is in place to report problems or concerns. There is a door entry system in the warehouse to protect stock and archiving when the building is in use during the day.

Data security – We have rolling tasks, audits, issue and procedures to regularly review data security. Firewalls and anti virus software to protect the digital systems.
