Hi Kate,

please note that I placed 2 orders:

1. The 18x R-22AVG that Ryan said they are in stock, for immediate shipping, and
2. The 30x Teledyne R-22AV to be shipped when available. Please let me know when you estimate that you can ship them.

If you have more peces of the R-22AVG in stock please add another 7 to my order (no.1).

Thank you in advance

Best regards

John Antasouras

Good afternoon John,

Thank you for your order.

Would you like the R-22AVG to be part shipped? I can see that Ryan has informed you that there is a delay with the R-22A.

Many thanks.

Kind regards

Kate Griffiths

Hi Ryan,

I would like to place the order for 30x R-22AV and the 18xR-22AVG (because I need some sensors asap), but I will also need the technical data for the R-22AVG.

Also I would like you to give me an estimate of when you will be able to dispatch the R-22AV sensors.

Thank you in advance,

Best regards

Hi John

Just to confirm, you would like to place the order for 30x R-22AV and you will come back to us on the R-22AVG.

Best regards
Ryan

Hi Ryan,

thank you for the update,
keep my current order for the next available lot and please let me know when this will be available.

Also keep the R-22AVG sensors for us. I will need to see how urgent it is to get them now or by the end of June in a bigger quantity.

Also please send me the datasheet for the R-22AVG sensor. Is it also produced by Teledyne?

Best regards,

John Antasouras

Hi John

Thank you for your email.

We do not currently have R-22AV sensors available, all stock is currently allocated against orders.

There have been some delays in supply from Teledyne, the latest information suggests we are to receive a batch at the end of this month and another batch mid July, but there is no guarantee.

I would advise you to plan ahead with your orders if at all possible. It is likely that the next few deliveries will already be spoken for before they arrive, if you wait until stock becomes available you are likely to miss out.

Please note that we can offer an alternative sensor that is more economical since Teledyne increased the pricing:

Price per sensor in EUR, EXW

R-22AV - 0110132 = 1+ €29.50 / 25+ = €26.50

R-22AVG - 0110182

1 = € 23.90 / 25+ = € 21.55 / 50+ = € 20.35 / 100+ = € 19.75

18x available from stock, more stock to be available from the end of June.

Please let us know how you would like to proceed.

Best regards

Ryan
