To whomever it may concern,

Please find enclosed a DB3 Microstim with serial number H0001782. This device was reported as being faulty. The fault description is that it would not power up. Upon inspection it was found the unit had suffered some kind of liquid contamination. It was on the main PCB. I did clean it with ISO for a better look at the damage but have included a picture of the original state I found it in. I have been advised to send it in to you for assessment, inspection and possible repair. I can be contacted on telephone number 01562 823424 ext 53273, or email karl.green1@nhs.net

For return purposes of the equipment, would you please mark it for the attention of the Technical Services Department at the above address.
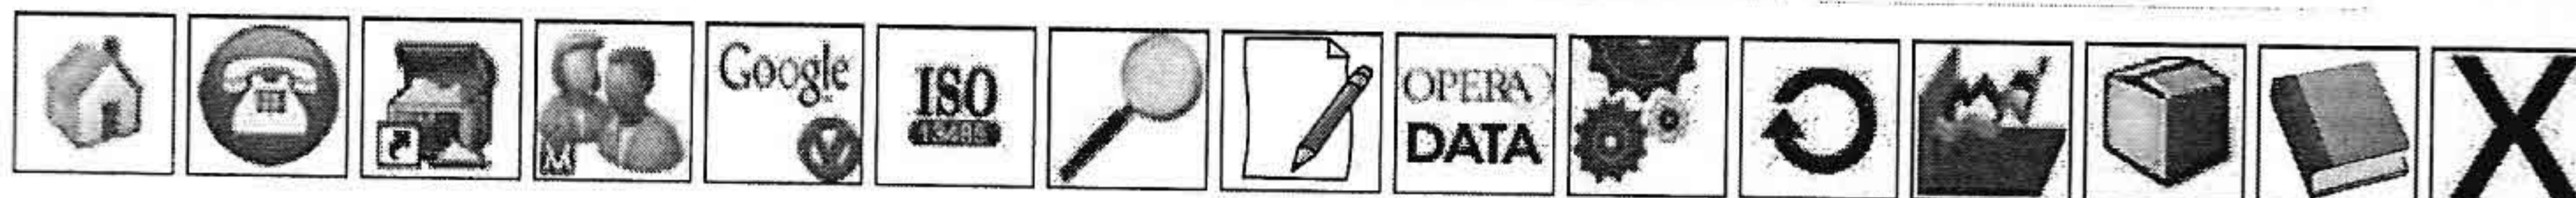

Yours faithfully,

Karl Green
