

ISSUES system Overview

The Issues system is integral to maintaining ISO standards, BSI Technical Files,

An issue is in essence an Outstanding Job / Action or Task.

Any employee can generate an Issue, All employees can and will receive Issues.

holding the Issues together are Company Meetings,

Board Meeting

Management Meeting

Customer Complaints Meeting

Stock Meeting

Sales and Marketing Meeting

Production Meeting

Projects Meeting.

Each Meeting has a Fixed Agenda of Headers:

When Adding an Issue to the System, the USER must pick a suitable header from a suitable Meeting,

E.g.

Stock Meeting Returns Overview - From Customers (9)

The screenshot shows a web application interface with a blue header bar containing the title "Stock Meeting - Returns Overview - From Customers". Below the header, there is a "Subject" label followed by a text input field. Underneath the input field is a rich text editor toolbar with icons for bold (B), italic (I), underline (U), text color (ABC), background color, bulleted list, numbered list, and link (Ω). Below the toolbar is a large white text area for the subject content. To the right of the text area, there is a large, empty light blue rectangular box. Below the text area, there are several form fields: "Issue To:" with a dropdown menu showing "Derek Lamb", "Related to Issue" (empty), "PO Ref:" (empty), "Opera A/c:" (empty), "Mark as Important" with an unchecked checkbox, and "Mark as Read only" with an unchecked checkbox. At the bottom of these fields is a button labeled "Add Issue".

Once an Issue has been created it can ONLY be cleared from the system by the person that created it,

In the case of system generated issues, they can only be cleared during a Full Meeting,

ISSUES from the USER perspective

Each user has their own unique login to Intrastats,

On the front page – the user will see a list of outstanding Issues

Derek Lamb 35 Outstanding Issues | Imported 17 Mar | Out of Office: Catherine Spence, Philip Crossley, Ryan Swaine, Future

The User can see Issues they have created, that have not yet been read / prioritised, or any issues still outstanding.

They can also see any Issues that are ready for completion.

Reading an Issue

First time a user reads a new Issues they are presented with:

The screenshot shows a web interface for reading a new issue. At the top, a status bar indicates 'Derek Lamb 36 Outstanding Issues', '1 Unread Issues', and 'Imported 17 Mar'. Below this is a row of icons for various services like Google, ISO, and OPERA. The main heading is 'Show Open Issues' followed by 'Reading New Issue #27832 - Click as Read or Update Issue to Move on'. The issue details include 'Tets', 'zztest part1 zztest part 3 subject 2', and 'Set to User: Derek Lamb'. A 'Mark As Read' button is available with 'Low', 'Medium', and 'High' priority options. A 'New Notes' section on the left has a text area and a toolbar. On the right, there are fields for 'Subject', 'Related Issue', 'Add File To Issue 27832', 'Next Action', and 'Priority'. A 'Confirm I have updated the Issue' button is at the bottom right. A table at the bottom shows a log of actions for issue 27832.

Issue	Date	User	Action / Notes
27832	17/03/11	Derek Lamb	Re-Read

They have the option to quickly tag the Issue as LOW / MEDIUM / HIGH Priority, (once click the issue will be added to the list of outstanding issues and ordered based on the priority selection.

Or they can comment on the issue / complete it, or send the issue to another user.

When commenting / updating an Issue you MUST add some notes. The minimum you should put in updating an issue is the word 'Done'.

Simply updating without any notes leads to Issues bouncing back and forwards between people.

For issues that are bounced around different users, updated / read at different time a log is generated at the bottom of the Issue

e.g.

Combined Issues Notes (Comment order might be out of context - Read Original Issue to be sure)			
Issue	Date	User	Action / Notes
25011	17/03/11	Derek Lamb	Re-Read
25011	03/03/11	Catrin Hird	Re-Read
25011	02/03/11	Derek Lamb	Re-Read
