Hi Debbie

The Mysign O needs the chip, so you will have to use the OOM111. We have them available from stock, I will have a quote put on for 1x sensor and we will email it over to you.

Best regards
Ryan

Ryan,

It will be used with the MySignO device. I am not sure if it needs a chip.

Hi Debbie

Are you looking for a sensor to integrate into your system?

The OOM111 has an onboard chip which allows you to programme your equipment so it will not work unless it sees the chip. If this is not required, we can suggest a more economical option.

Best regards

Ryan

Dear Debbie

Thank you very much for your enquiry and please accept my reply.

We would be very happy to supply you directly from our UK warehouse with the OOM111 oxygen sensors, please find our distributor pricing below:

OOM111 - pn. 0110560 = USD \$77.95 each EXW

We do not impose any minimum order quantities, but we would ask that orders are prepaid by proforma invoice.

Please let me know what sort of quantity you need and I can check our stock for you and give you an indication of lead time and provide a quotation with delivery costs.

I look forward to hearing from you and please never hesitate to contact us if you have any questions.

Kind regards

Ryan

Good Morning Steve,

I received your name from Honeywell. We are a small company in the US that manufactures veterinary anesthesia machines. I am looking to purchase the Oxygen Sensor OOM111. Can you tell me where they can be purchased?

Thanks for your help!

Debbie Stevenson
