

A diagram of a cell showing a large nucleus with a prominent nucleolus and several smaller nucleoli. The cell is surrounded by a cell membrane and a cell wall.

Enlarged front vi

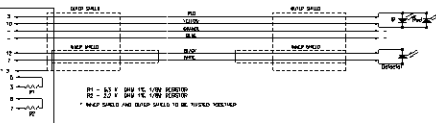

A diagram showing a cross-section of a cell wall. It features several concentric layers. The outermost layer is labeled 'Cellulose microfibrils'. Inside this, there are layers of 'Lignin' and 'Cellulose microfibrils' alternating. The diagram illustrates the complex structure of the cell wall, including the microfibrils and the lignin cross-linking.

The diagram illustrates the complex structure of the cell wall, including the microfibrils and the lignin cross-linking.

DPK1 Mole 12 pin

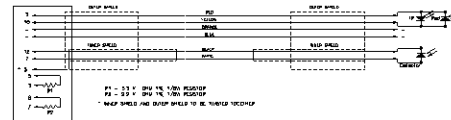

A diagram showing a cross-section of a cell wall. It consists of several concentric layers. The outermost layer is labeled 'Cellulose microfibrils'. Inside this layer, there are several small circles representing 'Lignin' molecules, which are cross-linked to the cellulose microfibrils. The innermost layer is labeled 'Cellulose microfibrils' again.
