Good afternoon,

Thank you for your email. My colleague Kate is currently out of the office, so please accept my reply.

I can confirm that the Oxygen Sensor you would require for the Dameca Anaesthesia machine would be the R-17MED Oxygen Sensor (part number 0110017):

Please find attached a quotation for 4 units, including carriage costs to Beirut, Lebanon. Please let me know if I have any details incorrect, or if you require any changes?

If you have any questions please do not hesitate to contact me.

Kind regards
