

**Manufacturing Route.**

- Parts received from suppliers – in the main Hi-Tech Plastics, Silicone Altimex, Goss Components Ltd, Advantage Medical CCS and Lemo UK.
- Parts of suitable quality are booked into stock and used to build finished products.
- All parts are QC checked and inspected before assembly.
- Products are assembled to “Approved” manufacturing procedures.
- Finished products are tested and records kept of measured parameters.
- Finished products must pass a final QA check.
- Finished products are serial numbered, stock sheets generated and ‘passed’, initialled & dated before release.
