Hello Sophie,

As expected: the purchaser at the Army is back from holiday since Monday this week – and today he was able to prepare the order for me for the 50 each MSAX-14 (Fluke) sensors!

So I am happy that I can drop you my corresponding order.

Question: normally you are putting the little Viamed-sticker on front of each sensor-package. Could you leave this off please? (if not – I am not going to claim it ...).

Thank you.

Kind Regards,

Gerold Diessenbacher
