Your buyer has paid and now it's time to create a postage label. Since you're sending through the Global Shipping Programme, your item will be sent outside the country with a tracked service — giving you and your buyer peace of mind. Global Shipping Programme transactions are covered by seller protections, but this only applies when you upload valid tracking information.

Give the package to the delivery company within 1 day, the dispatch time you promised in your listing — and don't forget to update the tracking information.

Unless subject to a hold, your payment will be available for payout within two working days of order confirmation and distributed to you in your next scheduled payout. Funds are deposited directly into your bank account per normal bank processing times. Check your [payment information](#) for updates.
