Hi Anthony

At the moment I would say 6 weeks, but I can confirm once we have allocated into the production schedule.

So, assuming six weeks (we will try and ship earlier), the shipping date will be around the 8th October.

How many orders in advance do you want to place? I suggest 2 - 3, then after one delivery another order can be placed.

1st order 8th October 2023?  
2nd order 8th January 2024?  
3rd order 8th April 2024?

Or do you want us to simply schedule a production batch for 13 weeks after the last shipment?

Hi Steve

We would like to put in a recurring order of 40x O2 cells every quarter from the first of September with delivery being as soon as practically possible

Please can you confirm this and let me know what the lead time for the first batch will be

Thanks

Kind Regards
