Thanks Ryan,Yes, the water trap generally comes with the blender on the Air connection, and we don't need the bracket. Please make sure it is a High flow blender.

Dear Salvaraj

I am sorry I missed your call this morning and thank you for your order. Please note that I am available now for the rest of the day.

I need to let you know that the MaxBlend 2 is not supplied with a watertrap and I am not familiar with any that are available for it. Can you confirm if you need the blender bracket?

Best regards

Ryan

Good morning, Ryan

This is to confirm our order for

1. MaxBlend 2 High flow Blender with NIST connection - 1850 USD - 4nos.

(Kindly make sure Air inlet has water trap fixed)

As it is urgently required, kindly treat this as an official order and get us the units within 3 weeks. Our official order will follow.

Thanks and best regards,

Selvaraj

Subject: MAXBLEND 2

Hi Selvaraj

With regards to your order of CO2 lines (4420925), our sales director has agreed we can offer you the old pricing for your current order or 8 boxes.

With regards to the MAXBLEND 2, I currently only have the pricing for the low flow, which is 0-15 lpm:

MaxBlend 2 Low Flow with NIST connection - 0310291 = USD \$1850.00 each EXW

Blender Bracket (Rail and Pole) - 0320452 = USD \$80.00 each EXW

The High flow model has an output of 0-70 lpm, if this is what you require I will confirm pricing, but I expect it to be very similar in price to the low flow model.

Best regards

Ryan
