Hi Alexander,

I see from your file you have an EU representative in Poland.

can you let me know what the current position is.

Is he active

Has he registered the product

Has he sold any.

Have there been any adverse incidents.

If we continue down the road we are on and we sign an agreement to a Viamed Own Label Product how do you see the future with your EU representative.

We obviously do not want to cause any ill feeling.

Kind regards

John

Dear John,

Yes,as you know,our EU REP is M/s Empireum in poland,who is active and has registered our product.We have been sold our eye protectors

to them,which I think you sold in poland market only.Up to now,there has been no adverse incidents reported from them.

I think there is not any trouble that you sign an agreement with us to use your own Viamed label in the eye protectors,since such agreement has

nothing related to our EU REP ,please feel rested with this issue.

Thanks&best regards,

Alexander

M/s Empireum
