Dear Ryan Swaine,

We are developing prototypes for a hospital ventilator.

We are not going to sell the sensor, we want to incorporate it into prototypes. We are still in the development phase.

Thank you

Melhores cumprimentos/Best regards

Dear Catarina Mendes

Thank you for your email and please accept my reply.

I am pleased to inform you that we have the R-22MED available from stock.

The R-22MED sensor is designed to be used in medical applications, please can you let me know what purpose you have for the sensors, as we may be able to offer a more suitable and economical model? Please can you also let me know if this is likely to be a regular requirement?

I will respond with a quotation as soon as I receive your reply.

Kind regards

Ryan
