Hi Steve,

Thanks for letting us know, that's no problem. And yes we would be happy for the shipment to be sent in parts instead of all together if needed.

Kind Regards,

Beth

Subject: QA issue with an oxygen sensor production part

Hi Beth

I am out of the office until the 16th, but I will be periodically checking my emails and also in contact with the office/production.

Unfortunately we have a QA issue with an oxygen sensor production part, which we are trying to resolve as quickly as we can. Tests are currently underway and we will ship sensors as soon as possible. We endeavour to ship complete orders, but if absolutely necessary would you be willing to accept part shipment?
