Hi, please can we process the order, the Maquet sensor is already on CVM144924, but can be added to this order if it simplifies things.
We can not supply the babylog flow sensors she mentioned, but I will let her know.

Thank you, Ryan

Dear Ryan

Thank you for your reply.

Yes we still have demand, but we had some stock in past.

Yes we also have potential for Babylog.

Jelena

Hi Jelena

I am just looking at our flow sensors sales and it seems you have not had any for a while and I wanted to check in with you to see if you still have requirements for them or if there is a problem we should know about.

I am sure I have mentioned this before, but we are aiming to have a version for the Drager Babylog, please let me know if this would be of interest to you? If so I will add you to my list and inform you as soon as they are ready.

Best regards

Ryan
