Dear Kate Griffith,

Thanks for your recommendation, but I have tried already to push this custom to change his mind to choose Viamed's sensors instead of Maxtec's sensors but not success for this order, I will try again to push him to choose Viamed's sensors for next year order.

Have a nice weekend.

Best regards,
Pongnarin Yoosomboon

Good morning,

Thank you for your email.

Before I finish the proforma invoice, I just wanted to let you know of **non-stock sensors and their alternatives**:

0110411 Max-11 x 10 (\$110.70 each) - not in stock, alternative is R-23V - 0110023 @ \$43.75 each
0110412 Max-12 (\$95.30 each) - not in stock, alternative is R-49V - 0110049 @ \$37.75 each
0110462 Max-12A x 6 (\$95.30 each) - not in stock, no alternative R-22MEDV - 0110021 @ \$37.75 each
0110421 Max-12C x 11 (\$95.30 each) - not in stock, no alternative * please see note below
0110413 Max-13 x 6 (\$95.30 each) - not in stock, alternative is R-41V - 0110041 @\$40 each
0110429 Max-250E x 12 (\$60.10 each) in stock
0110433 Max-250K with DC x 21 (\$86.80 each) in stock

* In most cases the R-22MEDV is a suitable replacement for MAX-12C. The R-22MEDV - 0110021 has a slightly wider body

I am happy to proceed with your original requirements, but the lead time for the sensors not in stock would be approximately 8-10 weeks.

I await your reply.

Kind regards

Kate Griffiths
