

## **Competency Assessment Questions – VM-2160 & OEM Boards – Technical Training**

Please please refer to any system resources that you have access to in order to locate the information. The training materials will be made available on the system.

If you are unable to find the information, please make notes at the end of this document detailing where you struggled.

- 1) How many hours of trend data does the VM-2160 SMARTsat store?
- 2) What is the name for a graphical representation of blood flow at the measurement site?
- 3) What do the colours green, yellow and red represent on the pulse bar graph?
- 4) Which sensor is included by default?
- 5) How can the user turn off the display?
- 6) What does the acronym OEM stand for?
- 7) What type of batteries does the device use?
- 8) Which OEM board has the best performance?
