Hi Aqib,

They have requested some amendments to the quote after finding some parts, please can you remove the following lines:

6 x 0330035 - Suction clear tubing 1m

2 x 3833-007 - Tapered Connectors For use with VacSax. Pack of 10

2 x 0330212 - Gauge Seal

Thanks,
Steve

Hi Steve,

Thanks for the quote.

I have found some suction tubing, tampered connectors and gauge seals.

Please can you alter the quote.

Thanks for all your help.

What time did we say and where do they report to??

Thanks

Subject: Re: resus cabinets.

Hi Andrew,

Thanks for getting back to me so promptly, I have booked in Thursday 7th December (next week) for the training.

Please see below the list of what I think is required for the services at Blackburn and Burnley, this based upon previous year's requirements and doesn't include any blender overhaul services or hose replacements as I believe that those were last addressed in 2020. If you think this is incorrect and that they might be due, please let me know and I will revise the quote.

11 x 0330213 - O Ring Thick
66 x 0330214 - O Ring Thin
4 x 0310104 - Low Suction Controller Filter Single
6 x 0330035 - Suction clear tubing 1m
2 x 3833-007 - Tapered Connectors For use with VacSax. Pack of 10
5 x 9950051 - Batteries 1.5V AA. Procell. 10pk
2 x 0330212 - Gauge Seal
PPUPS1 - UPS Carriage

I have attached a formal quotation. I've only added 2 gauge seals as we only replace these if the gauge is loose or can easily be turned, if you want more to be certain, please feel free to add up to 11 of them to your order.

Best regards,

Hi Steve,

That will be fine.

Joseph cook

Rebekah Cumberland

Jakob Poulton.

These 3 will be coming.

I have some spare parts but just need the 'o' rings, do I need a quote or just order them??

Thanks

Hi Andrew,

I see that the order is on our system, thanks. We have had some upheaval at our end due to Staff absence, and are having to restructure how we deliver the training.

We do still have the ability to offer it here at Viamed, but due to changes in who will be delivering it, we first just need to ensure those delivering it are fully versed in the servicing procedures. I will raise it for discussion in our team meeting tomorrow and see if we are ready to go on that yet.

Are there any weeks you want to look at specifically or dates to avoid?

Best regards,

Steve Hardaker

Subject: Re: resus cabinets.

Hi Andrew,

Sorry it was on my list to send you the training information and costs last week but things ran away with me towards the end of the week.

The cost is still £360.00+VAT per session for a maximum of 3 engineers, so if you are happy with sending 3 engineers, this will only require a single session.

I have attached a document that summarises the course details, it states a duration of 5 hours but that was based on timings of the early sessions, it now typically takes no more than 3-4 hours.

Do you have any particular days in mind when you are best placed to send 3 of your team away, working around annual leave etc, or should I just suggest some dates? We are aiming to get the workshop ready for

the week of 9th October, so would a date that week or the next suit you? Perhaps Tuesday 10th or soon after?

Also, I need to send a formal quote so that the Trust can raise a PO. We have accounts for Burnley General and Royal Blackburn, which account should we use and the invoice address?
