

15:51

this is the lead from SN earlier

Steve, 16:00

Hi Steve. That lead you forwarded from Bluepoint, they have asked for the Adult Silicone Soft Sensor, I believe that the BP equivalent is 0014670 SoftCap Sensor, SC7500. We have no stock, can you get a lead-time and check that you're happy with that price (it's cheaper than the Viamed version)?

I've asked SN if we can get the Bluepoint version of this, and to confirm lead-time and price.

SH
