Hello Michael,

Thanks for your understanding and fast offer.

I have some friends coming over here at the end of the month, and as we always find parcels get stuck in customs in Madrid, have extra paperwork checks, and sometimes 'import processing' charges added, it is much more secure to ship it to a friend in the UK. It will probably only arrive a few days after a normal Spanish postal experience!

Can you send the replacement to :

Brian Goldthorpe c/o Kim Kasprzak

[19 Goodwins Road](#)
Kings Lynn
NORFOLK.
PE30 5QX.

There is no urgency as they only fly here the last week in January. Please just confirm when a replacement has been shipped.

A final question .. what is your recommendation for 'disposing of used sensors responsibly ?' - always good to know!

Once again many thanks for sorting this out.

Brian Goldthorpe
