Dear Bozana

An extra R-17VAN sensor would be an additional GBP £38, but I would not recommend purchasing a spare yet. The sensors have a warranty of 12 months, but typically last 2+ years and have been known to last up to 4 years.

Please let me know if you would like me to add it to your quotation.

Best regards
Ryan

Dear Ryan,

Tnx s lot, transferring 189 pounds, will take full option you propose.
Pls inform what would be price for one additional sensore?

Kind regards,

Bozana

Dear Bozana

Please find a quotation attached with both accessory options.

I look forward to your feedback and any questions you may have.

Best regards

Ryan

Dear Bozana

Thank you very much for your email.

I took a look at your website and I would be happy to set you up as a trade customer so you can take advantage of our trade pricing and there are no minimum order requirements. Please find our trade pricing and some product information attached.

Before I send you a quotation, I have a few questions for you regarding the product:

1) We offer two variants of the VN202; Auto off and Manual off:

- Auto Off - once switched on, the device will power off after a few minutes
- Manual Off - the device will not power off automatically

2) In regards to sampling connectors, there are 3 options

- Without any accessories
- DINKIT, this device screws into a standard din fitting pillar valve and allows an easy connection
- QuickOx, this is the most versatile, it simply pushes up against any din, bullnose or yoke type pillar valves.

Would you like us to quote you for delivery or do you have a courier account that you would prefer to use?

I look forward to hearing from you.

Kind regards

Ryan

Dear Sirs,

I would like to take one oxygene analyzer, link below.
Please be so kind to send payment instructions,
we would like to pay with bank wire, we can't pay with credit card.
