Dear Ryan,

Thank you for your message.

I would like to order 1 piece.

Please send me Proforma.

Thank you very much.

Best regards

Ludmila

Dear Ludmila, I replied to you earlier, I fear you are not receiving my emails, please see my response below:

Dear Ludmila

Thank you for your email and I apologise, but it seems we did not receive the original one.

There has been a few small changes to our pricing:

R-22SHO = GBP £38 each EXW

(trade price, the price increases to £43 on the 1st March)

Carriage costs to Belgium by UPS would be GBP £13

Please let me know if you would like me to send you a proforma invoice or if you have any questions.

Best regards

Ryan

Dear Ludmila,

It appears that the sensor R-22SHO is suitable for your purposes. This is usually supplied for use with Alpha1 Oxygen analyser. I attach a copy of the specification sheet.

The trade cost of this sensor is £35 + £5 carriage + VAT. If you are VAT registered we will need your registration number otherwise 20% UK VAT will be added. Pricing is in GB Pounds.

If you wish to purchase and supply your VAT number I can arrange a proforma invoice. The sensor is available from stock.

Regards
