Dear Heroik

Thank you very much for your email.

Sensor OOM102-1 is a medical certified sensor, do you need this sensor for use in a medical application?

If you do, then we can quote you from our big sister company that takes care of sales and service to the medical industry. If not, I can find a compatible one for you.

Please can you let me know how many sensors you are looking for?

I look forward to your reply.

Kind regards

Ryan
