Call us on 0333 009 5821*
to renew your energy plan

Dear Helen

Your current Fixed Price Energy Plan for your electricity ends on 25 February 2024.
You now have a couple of options:

Fix your prices for 1, 2 or 3 years

- When your prices are fixed you're protected from any price increases for the length of your contract. You may also be eligible for government support on your next plan. To find out more visit britishgas.co.uk/supportforbusinesses

Do nothing and we'll move you onto our Variable Price Plan

- If we haven't heard from you by 25 February 2024, we'll move you to our Variable Price Plan. This means you won't be tied into a contract with us, but your prices can change at any time

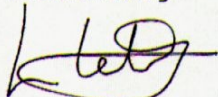

Upgrade to 100% Renewable Electricity

All of our plans are zero carbon as standard. We're also proud to offer 100% renewable electricity. Call us on **0333 009 5821*** to upgrade your next plan.

Let us know what you want to do

With all our new energy plans you'll receive your bills on a monthly basis. Take a closer look at your options on the next page and then get in touch - we're here to help.

Yours sincerely

Variable Plan Prices

Standing Charge¹
Unit Charge²

167.855 p/day
37.521 p/kWh

All prices exclude VAT and Climate Change Levy.

You're not tied in and your prices will not be fixed, but we'll let you know at least 30 days before they change. If you want to find out your current prices at any time after this date, please contact us. For more information visit britishgas.co.uk/business/variableplan

Stay on top of your energy usage

We'll be in touch soon to come and install your smart meter.

The benefits of a smart meter

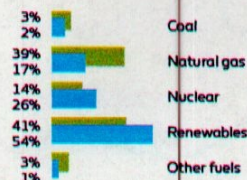

You can forget about meter readings as these are sent to us automatically. As smart meters take their own readings estimated bills will be a thing of the past, so you'll only pay for the energy you use.

Use less energy and lower your bills

We'd like to help your business save energy and smart meters can help you do this. To find out more about smart meters and energy efficiency please visit britishgas.co.uk/business/business-energy-saving

British Gas fuel mix 2022 - 2023

For more information about the fuel mix of our electricity please visit britishgas.co.uk/business/fuel-mix or ask us to send you a copy free of charge.

Comparison Key

■ British Gas Trading Ltd
■ UK National Average

CO₂ emissions
88 g/kWh 199 g/kWh

High-level radioactive waste
0.0018 g/kWh 0.001 g/kWh

Thinking of leaving?

We value your business and hope you want to stay, but if you decide to leave us at the end of your energy plan you'll need to pay all your outstanding energy bills before switching. Please remember we may stop you from moving to another supplier until you have paid the money you owe.

Important information

1 We don't like to make changes to your Fixed Price Energy Plan. However, sometimes we have to make changes that are required by law or because you've given us the wrong information. For a full list of when changes may apply, please see our Terms and Conditions - these can be found online at britishgas.co.uk/business/terms

2 These savings are based on a customer with a typical consumption (electricity 30,000 kWh, gas 35,000 kWh) and our one year Fixed Price Energy Plan prices on the date this letter was sent. Actual savings may vary depending on your consumption and other factors.

3 **Standing Charge:** Daily cost of transporting your energy and maintaining your meter

4 **Unit Charge:** Your price for the electricity you use. Depending on your meter type, you may have two or more different unit rates, for example, day, night, weekend and seasonal rates

5 We offer Zero Carbon electricity as standard on all Fixed Energy Plans. This is backed by Guarantees of Origin and nuclear declaration

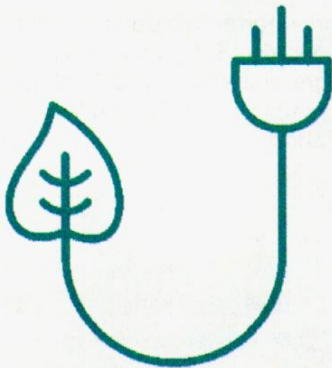

For more information about the mix of fuels used to generate our electricity, visit britishgas.co.uk/business/fuel-mix

Any concerns? You can access details of our complaints handling procedure at britishgas.co.uk/business/complaints

British Gas is a trading name of British Gas Trading Limited.

Registered in England and Wales No. 3078711. Registered office: Millstream, Maidenhead Road, Windsor, Berkshire SL4 5GD.

Upgrade to Renewable energy

Boost your organisation's green credentials and help meet carbon reduction targets with Renewable Business Electricity.

Our 100% Natural UK Renewable electricity product is backed by renewable certificates from generation sources such as solar, wind and hydro power.

For more information visit britishgas.co.uk/business/renewable-business-energy

Call us today on **0333 009 5821*** to upgrade your new plan to Renewable Electricity.

You're already saving 7%

Thank you for paying by Direct Debit. Doing so means you're saving up to 7% of the cost of your energy[^]. You'll continue to receive your discount for as long as you pay by Direct Debit.

[^] This will be shown as a discount line on your bill. Customers who move to our variable prices or whose variable prices have changed and those we've price matched do not qualify for a Direct Debit discount.

The small print – please read: By returning this completed form you are entering into a legally binding contract to fix your prices for the chosen period, subject to our Terms and Conditions. These can be found online at: britishgas.co.uk/business/terms. You won't be able to end the energy plan until the full fixed price period has ended, nor will you be able to transfer to another supplier, unless our Terms and Conditions say otherwise. Please remember, after the end of the fixed period if you have any outstanding bills we may stop you from transferring to a new energy plan or another supplier until you have paid all the money you owe. We'll send you details of your options, prices and Terms and Conditions around 60 days before the end of this Fixed Price Energy Plan. If you do nothing at the end of your Fixed Price Energy Plan, you'll move onto our Variable Price Plan. If you wish to leave us at the end of your Fixed Price Energy Plan – you'll need to let us know at least 30 days before the end of your plan.
