Hi Alexandre

Our analysers use the R-17VAN which has not been affected by the price rises.

Best regards
Ryan

Hi Ryan

I will be back to you asap for TEK-OX

What kind of sensors do you use for this unit ?

Take care

Hi Alexandre

No problem, the new trade pricing does not come into force until March, but we have not made any changes to the analyser pricing, it is only the sensors that have changed and mainly the high output models like the R-33DE, R-33S1 and R-33VAN that have been affected.

Best regards
Ryan

Hello

Oups, I just wanted to order some TEK-OX.

Is it to late to have them on 2023 price list ?

Take care

Alexandre

Vandagraph Pricing Update (09/02/2024)

[View this email in your browser](#)

Please find below links to the Vandagraph Trade and Retail Price List for your reference.

We have tried to maintain our current pricing wherever possible, but I regret to inform you that there has been a number of increases in the cost of the high output sensors, which we are unable to absorb.

I am pleased to inform you that the price changes have not impacted our analysers; the VN202 and TEK-OX.

Retail price lists are valid as of immediate effect, whereas the new trade prices will not be valid until 1st March 2024.

Please do not hesitate to contact us if you have any questions or concerns.
