Hi Peter,

Did anything develop further regarding your requirement for 19 rail clamps capable of a vertical mounting configuration?

The quotation expires tomorrow, would you like this to be refreshed or is it no longer required?

Best regards,

Steve Hardaker

Hi Peter,

I don't have a drawing of the `V` mount rail clamp but we have measured the clamping section and it's a 35mm opening that's just over 10mm deep, so it should comfortably fit over that rail as the clampable section is 10mm x 30mm.

I have attached a quotation for 19 units as requested, sorry, we don't have quantity breaks on these. With regards to lead-times, it's usually around 2-3 weeks on Maxtec items, we will only receive a more refined estimate once we place the order with them.

If you have any further queries, please let me know.

Sorry Steve, please can you quote for x19 or 20 if that's a breakpoint?

Whats delivery looking like?

Thanks

Peter

Hi Peter,

I've had one of the engineers have a tinker and we do have a solution for you, the clamp you need is this one:

[Maxtec V Mount Rail Clamp – Viamed Ltd](#)

It's configured as a horizontal clamp but the V-plate is held in by machine screws, and behind it is a second set of holes that allows the plate to be rotated through 90 degrees.

<image001.png>

<image002.png>

P/n 0121198 Maxtec `V` mount rail clamp @ £96.40+VAT

Carriage: £12.00+VAT

Availability: 6 in stock

On a separate matter, have you heard anything further from NICU re their enquiry for a MaxO2ME oxygen monitor? If that's no longer looking to be of interest, I can close that one off.

Best regards,

Steve Hardaker

Hi Steve

I'm after several clamps like <https://automotive.viamed.co.uk/products/0121184-viamed-v-mount-rail-clamp?variant=45352128250159> but with the v oriented through 90 degrees as we have vertical medi rail, can you help?

Kind regards
